BARFOOT SNOBOARDS 87/88

BARFOOT SNOBOARDS FOR THIS SEASON HAVE BEEN DESIGNED FOR ALL PURPOSE RIDING WITH AN EMPHASIS ON FREESTYLE. IN THE FREESTYLE SHAPE WE OFFER 3 LENGTHS, A 141cm, 151cm, AND A 161cm. ALL SNOBOARDS ARE A EPOXY FIBERGLASS HARDWOOD CONSTRUCTION. FEATURING SINGLE PIECE FULL LENGTH STEEL EDGES, P-TEX 1000 RUNNING SURFACE, T-NUT INSERTS 3 COLOR BASE GRAPHICS, URETHANE NOSE AND TAIL BUMPERS, AND A ASSORTMENT OF DAYGLO COLORS PROTECTED BY A FIBERGLASS EPOXY LAMINATED TOP SHEET.

THE INSERT PATTERN ALLOWS A WIDE RANGE OF ANGLES TO ACCOMODATE ANY DESIRED STANCE.

ALL THE FREESTYLE SHAPES FEATURE A 2/3rds CAMBER. THIS NEW DESIGN GIVES THE RIDER THE ABILITY TO PERFORM ALL THE FREESTYLE MANUEVERS WITHOUT CATCHING AN EDGE. BUT ALLOWS THE RIDER TO USE HIS EDGE WHEN THE SITUATION CALLS FOR IT.

ALL FREESTYLE SNOBOARDS ALSO HAVE A HYPERKICKED FISH TAIL DESIGN. THIS TAIL DESIGN ENABLES THE RIDER GREATER CONTROL DURING TAIL TRICKS AND LIP TRICKS.

THE BARFOOT BINDING FOR THIS SEASON HAS BEEN IMPROVED. THE BINDING FEATURES A FOLD DOWN HI-BACK FOR EASY PACKING. THE HI-BACK IS SLIGHTLY CANTED FORWARD FOR ADDED EASE IN CARVING. ALL BINDINGS FEATURE SKI BUCKLES WITH EXTRA STIFF SPRINGS WHICH GREATLY IMPROVE THE HOLD DOWN STRENGTH. ALL PARTS OF THE BINDING AND BUCKLE ARE ADJUSTABLE TO FIT A WIDE RANGE OF BOOT SIZES. THE BINDING BASEPLATE ALSO HAS 3 SETS OF MOUNTING HOLES TO ALLOW THE RIDER TO CENTER HIS FOOT ON THE SNOBOARD.

THANKS FOR YOUR INTEREST IN BARFOOT SNOBOARDS.
